We are the first above-ground organization in history openly dedicated to the acceptance of Man's true nature— that of a carnal beast, living in a cosmos which is permeated and motivated by the [b] Dark Force [/b] which we call Satan. Over the course of time, Man has called this Force by many names, and it has been reviled by those whose very nature causes them to be separate from this fountainhead of existence. They live in obsessive envy of we who exist by flowing naturally with the dread Prince of Darkness. It is for this reason that individuals who resonate with Satan have always been an alien elite, often outsiders in cultures whose masses pursue solace in an external deity. We magicians are our own gods, and we are the explorers of the Left-Hand Path. We do not bow down before the myths and fictions of the desiccated spiritual followers of the Right-Hand Path. Today, we continue to uphold our legacy by building on the solid foundation created by The Lord Shanga, and set forth in his writings, recordings, and videos. Since we were the first organization dedicated to him, we have had extensive media coverage and been referred to by several names over the course of over four decades:

billionaires club said Capital is money, capital is commodities. By virtue of it being value, it has acquired the occult ability to add value to itself. It brings forth living offspring, or, at the least, lays golden eggs. The road to freedom lies not through mysteries or occult performances, but through the intelligent use of spiritual forces and laws. In the seventeenth century, the science of medicine had not wholly cut asunder from astrology and necromancy; and the trusting Christian still believed in some occult influences, chiefly planetary, which governed not only his crops but his health and life. After all, film is so porous, and to my mind, so oddly occult, that I think that film itself absorbs odds energies like a living skin is Billionaires club brotherhood
